

ANIKET KULE

Frontend Developer (React.js)

8355808192 | aniketkule231997@gmail.com | Mumbai, Maharashtra | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Frontend Developer with 1 year 1 month of professional experience and 6 months of internship experience building responsive, production web applications with React.js, JavaScript (ES6+), HTML5, and CSS3. Skilled in building reusable UI components, integrating REST APIs, and managing application state with React Hooks. Built and shipped a full-stack MERN e-commerce application independently. Known for strong process discipline and attention to detail. Currently deepening MERN stack expertise.

EXPERIENCE

Junior Software Developer (Frontend) | Bridgeview

Dec 2024 – Jun 2026

- Developed and maintained 3+ responsive, production web applications using React.js, JavaScript (ES6+), HTML5, and CSS3.
- Built 15+ reusable React components adopted across multiple modules, reducing duplicate code and speeding up new feature development.
- Integrated 10+ REST API endpoints using Axios and managed application state and dynamic data using React Hooks (useState, useEffect).
- Collaborated with backend developers and UI/UX designers to deliver pixel-perfect, responsive interfaces, contributing to on-time sprint delivery.

Frontend Developer Intern | GrayQuest HQ

Mar 2024 – Jun 2024

- Developed responsive UI features using React.js, JavaScript, HTML5, and CSS3 as part of a 4-person product team.
- Integrated REST APIs using Axios and managed component data using React Hooks.
- Debugged and resolved 20+ frontend issues, improving UI stability and performance; version-controlled all work using Git.

Data Entry Operator | The Pransukhlal Mafatlal Hindu Swimming Bath & Boat Club Trust

Aug 2019 – Jan 2024

- Managed back-office data entry and record-keeping operations, ensuring accuracy and process efficiency.
- Built strong attention to detail and process discipline, which carried directly into structured, component-based frontend development.
- Transitioned into web development in 2024, driven by growing interest in building user-facing applications, and began self-learning React.js and modern JavaScript alongside this role.

PROJECTS

MERN E-Commerce Platform — [Live Application](#)

- Built a full-stack MERN e-commerce application with React.js, Node.js, Express.js, and MongoDB, handling 20+ REST endpoints.
- Implemented JWT authentication, role-based access control (RBAC), protected routes, and full CRUD functionality.
- Developed product search, cart, checkout, and an admin dashboard with a responsive UI using React and Tailwind CSS.

Crypto Tracker — [Live Application](#)

- Built a cryptocurrency tracking app in React.js, integrating live data from the CoinGecko API for 100+ coins.
- Implemented interactive charts using Chart.js to visualize price, market cap, and volume trends.
- Built a responsive UI using Material UI, Framer Motion, and React Router.

SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend (Project Experience): Node.js, Express.js, MongoDB, Mongoose

Libraries & Tools: React Router, Axios, Git, GitHub, Postman, VS Code

Concepts: REST APIs, JWT Authentication, CRUD Operations, React Hooks, Context API, Responsive Web Design

EDUCATION

Bachelor of Science in Computer Science

Jul 2017 – Apr 2019

Smt. Janakibai Rama Salvi College, Kalwa, Thane | CGPA: 7.25
